

Bell Work - Week 4 - 5

1. If 200 people were surveyed about pets, about how many people like fish and cats?
2. Name the property: $13(0) = 0$
3. About how many centimeters are in a yard?

1. Write 120% as a ratio in three different ways.
2. A kite is a parallelogram. True or False? Explain.
3. Find each answer: $9 - (-7) = \underline{\quad}$ $-9 - (-7) = \underline{\quad}$
4. Name the property: $(\frac{1}{4} + 5) \cdot 0 = 0$

1. Dustin went hiking on a trail. Along the way he counted how many birds he saw. While on the trail he saw 3 Red Hawks, and 6 Bald Eagles. What is the ratio of Bald Eagles to the total birds? Simplify if possible.
2. At what temperature does water boil? List both Fahrenheit and Celsius.
3. John and his brother are ordering cement for a driveway they are making for Mr. Jones. If the measurements are $l = 14\text{ft}$, $w = 8\text{ft}$, and $h = 1\text{ft}$, what is the amount of cement they will need to fill in the driveway?
4. How many inches are in 4 feet?

1. Complete the following table. Simplify if possible and show all work.

Fraction	Decimal	Percent
$\frac{5}{6}$		
		9%
	0.65	

2. Ben and Annie are making a cake. They need to double the recipe. The recipe calls for 2 eggs, $\frac{1}{2}$ cup oil, and 1 cup water. How much oil will they need?
3. Solve. $(13 - 6) + 8 \times 2 + 4^2 =$
