

# A Quick Lesson in HTML

(You can use this in the text fields in Filamentality)

➤ **To make text bold:**

`<b>some text</b>` - The result will be: **some text**

➤ **To make text italicized:**

`<i>some text</i>` - The result will be: *some text*

➤ **To underline text:**

`<u>some text</u>` - The result will be: some text

➤ **To nest tags:**

`<i><b>some text</b></i>` - The result will be: ***some text***

➤ **To create a link to another web location:**

`<a href="http://www.theotherwebsite.com">Link text</a>`

- Example: [Tech Tools for Middle and High School English](http://www.theotherwebsite.com)
