

# Primary Source Documents in EBSCO

1. On the EBSCO Databases screen, choose EBSCOHost Research Databases.

2. On the Choose Databases screen, Science Reference Center is the default. Make sure that MAS Ultra – School Edition is one of the options that is selected. Others may be chosen, but this one should definitely be selected. Click continue.

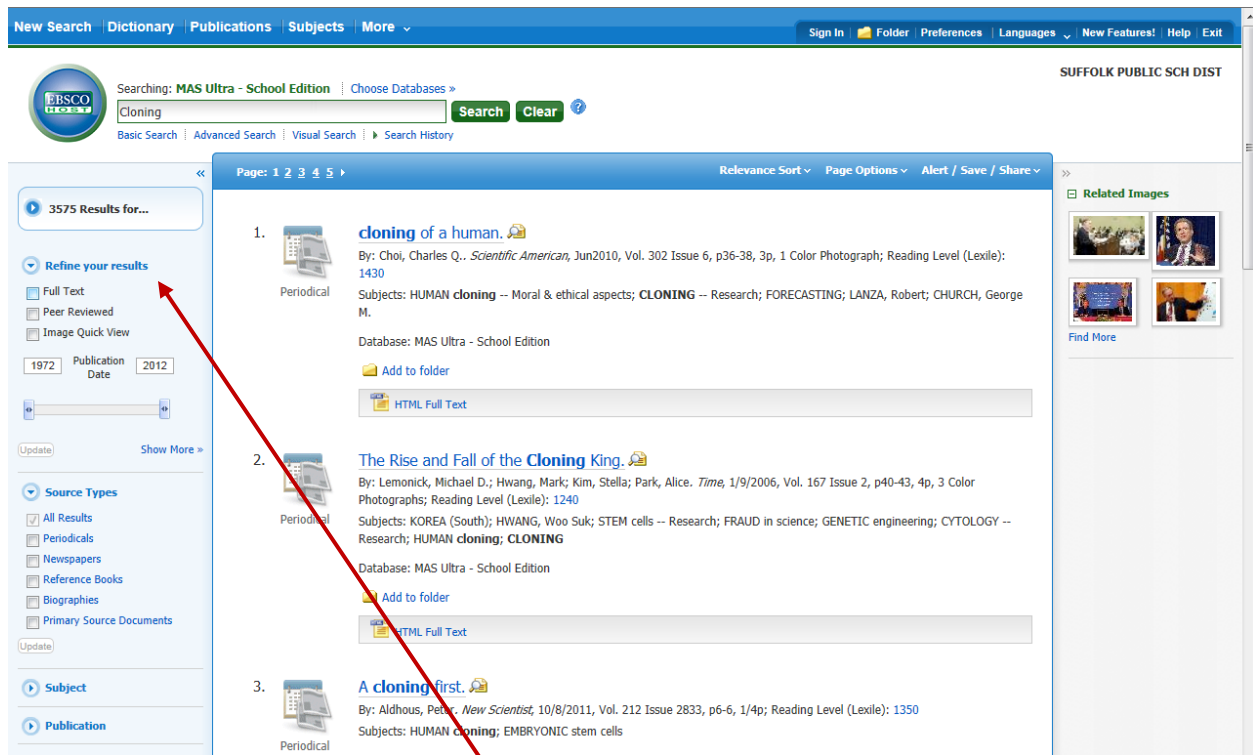

# Primary Source Documents in EBSCO

3. In the search screen, type in your search term. Click on Search.

4. The search results screen will look like this:

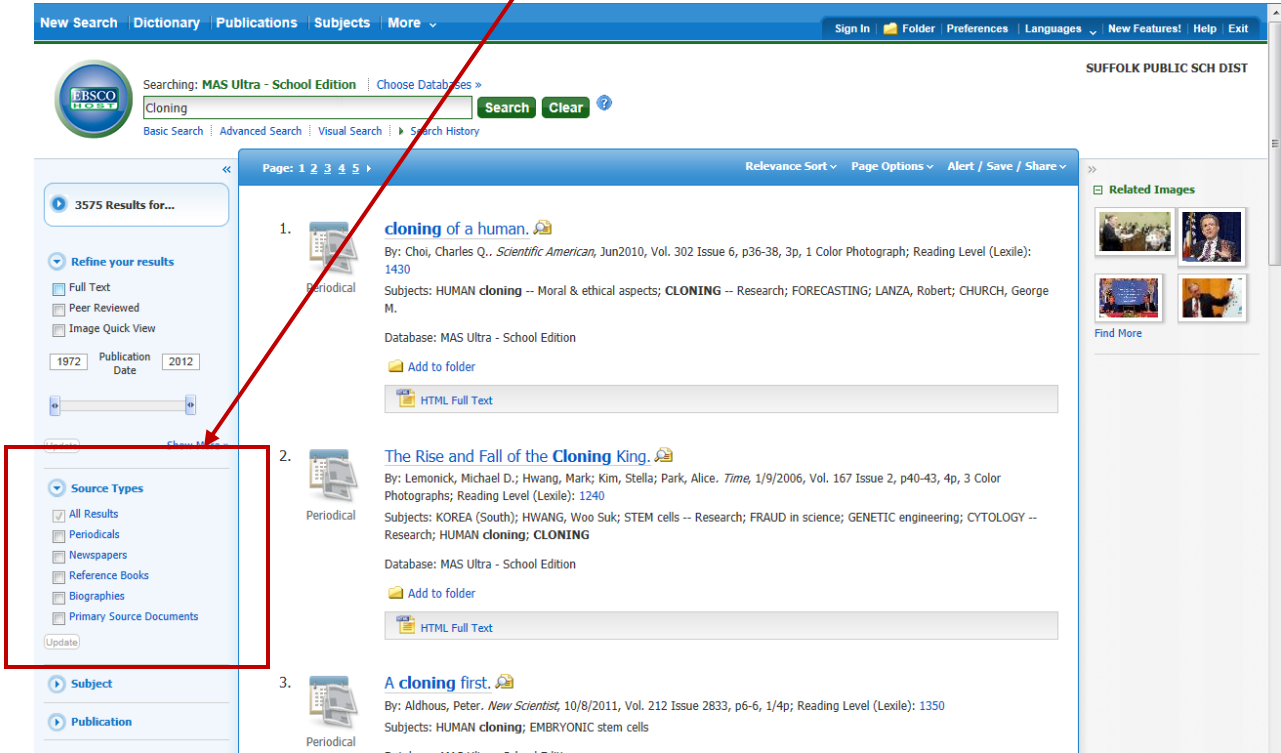

5. On the left side in the Refine your results area, click in the Full Text box and then select update.

# Primary Source Documents in EBSCO

6. Then on the left side in the Source Types area, select Primary Source Documents and select update.

7. The resulting list of sources will contain only full text primary source documents.
